### 摘要

隨著網路資訊科技的蓬勃發展，教學媒體的使用日益普遍，教學媒體的管理方式亦隨之改變。本文討論如何在台灣國民小學現有的行政架構下建制一套網路化的教學媒體管理系統，使教師能更方便地使用適當的教學媒體，亦使管理者能更有效掌握多元媒體資源的運用情況。

關鍵字：教學媒體、媒體資源管理、媒體服務、網路化整合管理系統

### ABSTRACT

The fast development of web-based information technology has made the use of instructional media more demanding in elementary schools, and the ways of managing media services also need to be updated. This article discusses how to construct a web-based instructional media service system under the current administrative structure. Such a system may help teachers effectively select and employ instructional media, and help administrative personnel effectively manage the media services.

Keywords: Instructional media, Instructional resources management, Media services, Web-based integrated management system
